PROFILE

Cloud Full Stack Developer with **2+** years of experience building scalable, **serverless** applications using **React**, **Node.js**, **SQL/NoSQL** databases, and **AWS**. Proven expertise in **microfrontend** architecture, AI-powered systems with AWS **Bedrock**, and **CI/CD** automation. Strong in end-to-end feature development, performance optimization, and cloud-native design.
Portfolio: https://prabha-info.vercel.app/

SKILLS

- **Programming Languages:** JavaScript, TypeScript, SQL
- **Frontend:** React, Microfrontend Architecture, SCSS, MUI, Cloudscape Design, Jest
- **Backend:** Node.js, Express.js, AWS Lambda, REST APIs, API Gateway
- **Databases:** DynamoDB, MongoDB, MySQL
- **Cloud & DevOps:** AWS (Lambda, S3, DynamoDB, API Gateway, CloudFormation, CloudFront, CloudWatch, IAM, Cognito, SNS, SQS, SES, Bedrock, Textract, Comprehend, Polly, Transcribe, CDK, EC2), CI/CD, GitHub Actions
- **Architecture & Platforms:** Serverless Architecture, Antigravity, Webpack
- **Tools:** GitHub, GitHub AI Agents, GitHub Copilot, Postman, VS Code, JIRA, JWT.io
- **Languages**: English (Fluent), Tamil (Native), French (Basic)

EXPERIENCE

Diafoni Technology Services Pvt Ltd *Pondicherry, India*
Cloud Full-Stack Developer Mar 2024 – Present

- Built scalable serverless applications using React, TypeScript, Node.js, AWS Lambda, and API Gateway, improving response time by 25%.
- Developed AI-powered voice and code interview modules using AWS Transcribe and Bedrock (Nova), increasing user engagement by 40%.
- Designed secure authentication with Google OAuth 2.0 and AWS Cognito .
- Implemented microfrontend architecture with Webpack, reducing feature rollout time by 30%.
- Automated CI/CD pipelines using GitHub Actions and GitHub AI Agents for PR validation, testing, and workflows, cutting deployment errors by 40%.
- Worked with SQL (PostgreSQL/MySQL) and NoSQL (DynamoDB) databases for optimized data modeling, indexing, and performance.

PROJECTS

HireRankers – A I Interview Practice Platform (Full Stack Developer)

- Built a complete **AI-powered platform** supporting MCQs, voice interviews, and real-time code practice using **React, TypeScript, Node.js and AWS.**
- Implemented real-time transcription and feedback using AWS Transcribe and Bedrock Nova.
- Developed serverless REST APIs with AWS Lambda and DynamoDB, improving response time by 15%.
- Created an admin dashboard for candidate tracking, analytics, and certificate generation.
- **Integrated** Google OAuth for secure authentication and GitHub Actions for automated deployments, reducing bugs by **20%.**

EDUCATION

- B.Tech in Computer Science & Engineering | Rajiv Gandhi College of Engineering & Technology
  2019 – 2023 | CGPA: 7.1/10 (Top 10%)

CERTIFICATION

- **AWS Certified Developer – Associate** *(Scheduled)*

ACHIEVEMENTS

- Saved **5+ hours/week** by automating CI/CD pipeline via GitHub Actions for team-wide deployment.
- Mentored **3** junior developers in AWS serverless & microfrontend concepts.
